As sure as your last day
You will pay

You gonna reap only what you sow
You'll get back what you give don't you know
What goes up gotta come down
What goes around comes around

Chorus (repeat)

There'll be no ifs of buts or maybe
The law from above shows no mercy
For all the bad that you have done
On judgement day there's no place to hide or run

Chorus (repeat)

Sometime, some day, somewhere
From the big man you will hear
The law of cause and effect is goin catch get you
And no one, no one can ever save you

Chorus (repeat)

Eman Jam

words and music- Errol H. Renaud

Music is my living
Yes it keeps me going
It's taken me all over the world
On its back I ride
The joy I cannot hide
When I play and watch the people sway

My music is sweet just like sex
It makes me happy when am vex
My music takes my troubles away
And I am going to do it every day

Chorus

I love it when ah jamming
I love it when am jamming my music
I love it when ah jamming
I love it when am jamming my music
I love it, love to jam it
I love it, love to jam it

Music is a blessing
Keeps my heart beating
For it I say thanks to Jah
A musical ecstasy
Makes me feel so happy
When I groove and watch the people move

My music is nice and tasty
It makes me feel so dandy
My music takes away all sadness
And fill up my life with happiness

Chorus (repeat)

Bridge

Drums kick it, gimme some bass, join the jam Eman

Havana mama

words and music Errol H Renaud

Dancing under the disco lights
She looked so good, rosy and bright
From head to toe she was dressed to kill
The way she moved gives me such a thrill

Chorus

Havana mama she love my soca
Havana mama sweet like sugar
Havana mama I love her salsa
Havana mama show me your cha cha

the clothes she wore exposed all she got
the gleam in her eyes said she wanted a lot
the way she danced she was out to tease
I could tell she was hard to please

Chorus

Havana mama she love my soca
Havana mama sweet like sugar
Havana mama I love her salsa
Havana mama show me your cha cha

Bridge

come here baby, I love the way you move, come on and teach
me some of that Cuban stuff, yea nice, oh baby you're so sweet

I wandered if the smile she gives was real
To be close to her how would I feel
She said to me come dance the night away
For tomorrow is only another day

Chorus

Havana mama she love my soca
Havana mama sweet like sugar
Havana mama I love her salsa
Havana mama show me your cha cha
Havana mama she love calypso
Havana mama teach me to mambo
Havana mama she sweet and sexy
Havana mama shake up your body (repeat)

Keep your head on

words and music by Errol Renaud

Look out for deception as you live your life
Ooh girl you got to take my advice
All the fake they will always to hide
So my baby don't be taken for a ride

Chorus

Just keep your head on baby keep your head on
In this world of deception
Just keep your head on baby keep your head on
In this world of confusion

Deceivers in all form and fashion
In robes, suit and tie in a high position
Parasites in this human jungle
Look out baby they are all out to get you

Chorus

Keep your head on baby keep your head on
In this world of deception
Just keep your head on baby keep your head on
In this world of confusion
Keep your head on baby keep your head on
It is not an illusion
Just keep your head on, keep your head on
Baby use your intuition

Oh baby beware of fads and trends
Open your eyes to hype and pretence
Don't be fooled by the role model
They're what the predator will use just to get you

Chorus

Keep your head on baby keep your head on
In this world of deception
Just keep your head on baby keep your head on
In this world of confusion
Just keep your head on baby keep your head on
It is not an illusion
Just keep your head on, keep your head on
Baby use your intuition (repeat)

Let it in

Let the music inside of you (let it in)
Feel it in your bones in your soul
Let the music inside of you (let it in)
Let it take control

Close your eyes and enjoy the sweetness
Cause the music gonna exploit your weakness
It's coming down like a ball of fire
Gonna make you hot satisfy your desire

Chorus

Let the music inside of you (let it in)
Feel it in your bones, deep in your soul
Let the music inside of you (let it in)
Let it take control

I know you will enjoy the feeling
It's got the power to make you sweat
Make you hot you will get soaking wet

Talk is cheap

words and music by Errol H. Renaud

Never, never believe only what they are saying - nah
Wait for a while and see what they will be doing - oo oh
For action speaks louder than any fancy words - yeah ah
You got to prove yourself and not just be heard - no no
Whenever you say, I love you
It's got to be true, got to be true

Chorus

Live it come on and live it - talk is cheap, talk is cheap
Live it come on and live it - talk is cheap, talk is cheap

Words from a man's lips don't mean a thing - no oh oo
The proof of the saying is in the doing -- yea
Put into practice every little thing that you preach -- yea yea
'cause that's what Jah Jah always teach yes he did
So don't just talk your talk
You got to walk, walk your walk

Chorus

Live it come on and live it - talk is cheap, talk is cheap
Live it come on and live it - talk is cheap, talk is cheap
Live it you got to live it - talk is cheap, talk is cheap

Never, never believe the vibrations from a man's tongue - no oo
Wait until the energy produced is positive, positive and strong
Promises of love, peace and togetherness - wo oo
And all we have is a world of greed and selfishness - oh no
Forget the talk, we need more action, we need more action

Chorus

Live it come on and live it - talk is cheap, talk is cheap
Live it come on and live it - talk is cheap, talk is cheap
Live it you got to live it - talk is cheap, talk is cheap
Live it you must live it - talk is cheap, talk is cheap

Talk is cheap, talk is cheap, talk is cheap, and talk is cheap
That's what I say, you better believe

The Message

words and music Errol H Renaud

Come on let's celebrate love tonight
Forget the trouble around us
Let's do it right
Come on babe let's put on a show
Of love, sweet love
And hope the world would follow

Chorus

The message is love - oh
The message is love - spread the message
The message is peace - woo oo oh
The message is love - let love be the message

Let all our thoughts be positive
Accept the bitter with the sweet
And change our negatives
Let's be the true loving example
So everyone around us would join and be loveable

Chorus

The message is love - oh
The message is love - spread the message
The message is peace - woo oo oh
The message is love - let love be the message

Let's reach for a higher consciousness
Spread the love
With truth and righteousness
Use the power, the power of the music
Enough silly songs
Spread the message with conscious lyrics

Chorus

The message is love - oo o oh
The message is love - spread the message
The message is peace - oo oo oh
The message is love - let love be your message
Peace - wo spread the message
The message is love - oh sweet love
The message is peace - oh
The message is love - let love be the message (repeat)

Time

words and music by Errol Renaud

Don't know that time is a beautiful thing
Fortune and heart break it will bring
Make you young then turn you old
It cannot be bought or be sold
You can depend on time to set you free
From oppression don't you worry
What Marley said you should keep in mind
None ah dem can stop the time

Chorus

Tick tock ticky tick tock - oh lord it's the sound of the clock
Tick tock ticky tick tock - it gonna change your luck
Tick tock ticky tick tock - can you hear the knock
Tick tock ticky tick tock - oh you better take stock

Woe to the beautiful the famous and the rich
Humble yourself it's all a temporary itch
Respect the clock hanging on the wall
Time's one day it's gonna be your call
It don't matter who you are how big is your name
Time makes us equal in the end we're all the same
So always keep all of this in mind
No money man can stop the time

Chorus

Tick tock ticky tick tock - oh lord it's the sound of the clock
Tick tock ticky tick tock - it gonna change your luck
Tick tock ticky tick tock - oh can you hear the knock
Tick tock ticky tick tock - you better take stock

The hour hand moves time is slipping away
Live your life good and wait for your day
What's the use of fighting for power
Jah say nothing is forever
Material gains you will have to give it all up
A spiritual life put it on top
Remember to keep all this in mind
No one will ever, ever stop the time

Chorus

Tick tock ticky tick tock - oh lord it's the sound of the clock
Tick tock ticky tick tock - it gonna change your luck
Tick tock ticky tick tock - oh can you hear the knock
Tick tock ticky tick tock - you better take stock (repeat)

You and I

words and music by Errol Renaud

The way we live is a shame, shame, shame
But let's forget who is to blame
We got to find a solution
To save ourselves from destruction
We got to put our mind to it
And tell ourselves that we can do it

Chorus

You, you, you, you, you, oh my lover it's up to you and I to make life sweeter
You, you, you, you, you, oh my brothers it's up to you and I to live together

Each one of us has a part to play
So we can have peace and love each and every day
Forgive all who done you wrong
But still remember so it don't come back around
We got to get together live as one
Try and try until Jah Jah work is done

Chorus

You, you, you, you, you, oh my lover it's up to you and I to make life sweeter
You, you, you, you, you, oh my brothers it's up to you and I to live together
You, you, you, you, you, Mr. stranger it's up to you and I to make the world better
You, you, you, you, you, oh my neighbor it's up to you and I to love each other

Imagine total affection
Love and happiness in every direction
You and I in peace and harmony
In a world of truth and honesty
I dream of it again and again
A life of joy and no more pain

Chorus

You, you, you, you, you, oh my lover it's up to you and I to make life sweeter
You, you, you, you, you, oh my brothers it's up to you and I to live together
You, you, you, you, you, Mr. stranger it's up to you and I to make the world better
You, you, you, you, you, oh my neighbor it's up to you and I to love each other
It's up to you it' up me it's up to she it's up to he (repeat)
You and I
